HISTORY

Built in 1920, Klinger Lake Country Club has a rich golf history. The golf course began as a nine-hole layout and the back nine was added ten years later. Golf legend Chick Evans established the first course record (73) in 1921. During the 1940's, touring professionals Ben Hogan, Jimmy Demaret and Byron Nelson all played here. The current course record (63) is held by former KLCC Golf Professional Norm Collins.

FEATURES

The golf course is a par 72, 18-hole course, which plays 6,255 yards from the men's tee and 5,198 yards from the ladies' tee. This may not appear long, but don't be fooled, Klinger Lake is a very challenging course to play! The condition is always top-notch, which contributes to the quick greens. The course is truly a pleasure to play.

STATISTICS

A typical course, public or private, will play 22,000 to 40,000 rounds a year. Klinger Lake Country Club's course only plays about 8,000 rounds per year, which is very low for an 18-hole facility. Therefore, it is very easy to get on the course. Tee times are accepted up to one week in advance, but reservations are rarely necessary. The PGA Professional and his staff conduct an extensive tournament schedule for club members, with over 30 events to participate in per year.

PRO SHOP

The PGA Professional, Pat Hagerty, is one of our many long standing employees, serving the membership since 1994. Pat and his staff are available to assist with all golf-related needs. Pat also offers individual and group instructions. The KLCC Pro Shop is stocked with all of the best golf equipment, plus KLCC merchandise and apparel.
